Convoy of Hope was founded in 1994 by Hal Donaldson. His inspiration for starting the organization can be traced back to the many people who helped his family after his father was killed by a drunk driver in 1969.

It is Convoy of Hope’s privilege to work with churches, businesses, government agencies, and other nonprofits to provide help to the impoverished, hungry, and hurting.

**WHAT WE DO**

*Children’s Feeding*

We believe children are essential members of their communities. As future leaders, they’ll have the opportunity to one day bring positive change to their countries by breaking the cycles of poverty and hunger. We use regular meals in schools and access to clean drinking water as starting points to build and support thriving communities.

*Disaster Services*

Convoy of Hope’s Disaster Services team is consistently among the first to respond to disasters at home and around the world. Highly regarded for our scalable response and distribution model, we utilize our eight international warehouses, four domestic warehouses, a specialized disaster response fleet, and a highly-trained team of staff and volunteers to respond quickly and effectively.

*Agriculture*

Food security transforms communities by lifting people out of dependence on others for their daily sustenance. Through our Agriculture program, we equip vulnerable farmers and their families with the skills, tools, and seeds to produce life-sustaining crops.

*Community Events*

At our Community Events, we partner with businesses, agencies, churches, and organizations to provide free groceries, health and dental screenings, haircuts, family portraits, veterans services, hot meals, career service training, and much more to those who may not have the means to access these resources themselves.

*Women’s Empowerment*

When women are given the opportunity to generate income, it impacts the economic standing of their families and communities. We partner with women to help develop sustainable resources which they can leverage to make more strategic, independent life choices.

*Rural Initiatives*

Poverty and hunger have gained a devastating edge in America’s rural communities. Through this initiative, we resource, empower, and partner with rural churches through training, mentoring, and coaching. Our goal is to train leaders to help the working poor and strengthen their communities.
