# *We encourage women*

around the world to realize their value and reach their potential through job training and education. As a result, many now own a business and feed and care for their own children.

Since our Women's Empowerment initiative launched, thousands of women and girls have participated in our Economic Empowerment, Mothers' Clubs, and Girls' Empowerment programs. Women receive startup capital for income-generating activities, allowing them to break the cycle of poverty.

Girls receive education in physical and emotional health, harmful cultural practices, and other relevant topics. They also learn the importance of staying in school and making decisions that will benefit their future families.

Please visit [convoyofhope.org/we](http://convoyofhope.org/we) for more information.
